EXPERT KNOWLEDGE AND BESPOKE  
LANDSCAPING SOLUTIONS

SINCE 1998

# About Us

Blue Iris Landscapes Ltd have been taking care of our clients' gardens since 1998. We are an award-winning landscaping and garden maintenance company catering for both private and commercial grounds. **We pride ourselves on the quality of our work and the brand promises that we adhere to:**

- ✦ Fantastic customer service
- ✦ A professional service delivered with expert knowledge
- ✦ Bespoke solutions

## WOULD YOU LIKE

- ✦ A picture-perfect garden that you can relax in and enjoy?
- ✦ A reliable, professional gardener with years of experience and expert knowledge?
- ✦ A project that is completed to an excellent standard on time, and on budget?
- ✦ Amazing customer service, giving you peace of mind and allowing you to concentrate on other things?

**If your answer to these questions is yes, then get in touch with Blue Iris Landscapes!**

## AREAS WE COVER

Our services cover Staffordshire, Cheshire, and Derbyshire; however, we have even travelled internationally in the past, landscaping clients' homes in France and America.

Blue Iris Landscapes  
provide a wide range of  
grounds maintenance services.

# Maintenance

## OUR SERVICES

A beautiful garden can act as an extension of your home giving you an area to relax, entertain guests and spend time with your family. To keep your garden looking fantastic all year round it is important for it to be regularly maintained; keeping the lawns striped, the borders weed free and the hedges trimmed with crisp, clean edges.

### LAWN CARE

Including the mowing and edging of lawns, feed and weed treatments, moss treatments, scarification and aeration by hollow tining.

### HEDGE CUTTING

Including regular trims, reductions in hedge size and maintenance of parterres.

### PRESSURE WASHING

Pressure washing to remove moss and dirt from hard paved areas.

### JAPANESE KNOTWEED REMOVAL

Including the identification, treatment and the removal of Japanese Knotweed.

### BORDER AND SHRUB CARE

Including the weeding and hoeing of borders and the pruning of shrubs to encourage further healthy growth and improved flowering.

### COMMERCIAL GROUNDS MAINTENANCE

Including maintenance of your commercial grounds, car parking and hard paved areas.

### TREE MAINTENANCE AND SURGERY

Including pruning and shaping, tree removal and planting.

## PRIVATE GARDEN MAINTENANCE

Having your garden maintained on a regular basis can really add to the aesthetics of your property and preserve any landscaping works that have been carried out.

There is nothing more attractive than a lovely lush lawn, thriving plants and colourful shrubs within a weed-free border and a gleaming moss free patio. By choosing to have your garden maintained by Blue Iris Landscapes, you can enjoy your garden without having to lift a finger – worry free.

Regular maintenance visits can be carried out on a weekly or fortnightly basis, depending on your requirements. Got a garden party planned? We can help prepare your garden for that too, making sure that everything looks perfect and that it will **make your guests say “Wow!” when they arrive**. Blue Iris Landscapes want all of our clients to be 100% happy and will work with you to ensure the service we provide covers all of your needs.

## LAWN CARE & TREATMENTS

Your lawn is one of the most versatile parts of your garden, giving you the opportunity to relax, play and entertain guests within the same space.

A lawn that is well maintained, with perfectly straight lines, can really add to the aesthetics of your property and be something that you can be proud of.

Blue Iris Landscapes will mow your lawn with professional mowers on a weekly or fortnightly basis depending upon requirements, helping it to look it's best throughout the year and reducing as required throughout the winter. Lawn treatments such as Feed and Weed, Scarification and Aeration help to remove broad-leaved weeds and moss and encourage growth to give you a lush, green lawn.

Contact us now to see how we  
can enhance your garden and  
make your life easier.

How would you feel  
arriving home to a beautifully  
manicured garden?

## TREE MAINTENANCE & SURGERY

Trees are one of the most important natural resources in a garden, encouraging wildlife and providing areas of shade that you can take advantage of on those hot summer days.

## HEDGE CUTTING & SHRUB PRUNING

Nothing finishes off the aesthetics of a garden more than a crisp, squared off hedge, acting as a clear boundary and providing additional privacy from the outside world.

## PRESSURE WASHING

Even the most beautiful stone patio can be ruined by moss and staining built up over the year, ruining the aesthetics of your garden and making your paving slippery underfoot.

## COMMERCIAL MAINTENANCE

Do you want your commercial premises to have that real Wow factor, impressing clients and visitors before they have even entered the building?

Blue Iris Landscapes provide high-quality commercial maintenance on a regular and one-off basis, depending upon your requirements. All of the work is completed by our experienced teams, using professional machinery that leaves formal stripes in your lawns and keeps your borders neat and tidy whilst encouraging healthy growth and flowering. Our commercial maintenance service has all of the necessary measures in place to ensure that you can concentrate on other, more important, things – worry free.

### DBS CHECKS

The Blue Iris team have the necessary DBS checks.

### PUBLIC LIABILITY

Blue Iris Landscapes are covered for £5,000,000 in public liability insurance.

### CONTRACTS

Commercial maintenance contracts are available for 1, 2 or 5 years.

### ADHOC MAINTENANCE

One off maintenance visits are available on an ad-hoc basis, as required.

### HIGH STANDARDS

All work is guaranteed to be a high standard with minimum disruption for the client.

### HEALTH & SAFETY

With regular visitors to commercial premises and stringent Health and Safety regulations, it can be a real concern to our clients when the colder weather sets in and snow and ice become prevalent. Blue Iris Landscapes can apply rock salt to paths, drives and car parks, as well as clearing snow in any high traffic areas to help them remain safe for visitors as well as being in line with Health and Safety regulations.

### ACCREDITATIONS

Blue Iris Landscapes are delighted to have gained certification to **ISO9001**, **ISO14001** and **BS OHSAS18001**.

### WHAT THIS MEANS FOR YOU IS THAT:

All of our personnel are fully trained for both the use of machinery and comply with all Health and Safety regulations.

Our environmental commitment means that we will disturb as little vegetation and the local eco-system as possible when conducting our work.

All our vehicles contain the necessary documentation, including risk assessments, method statements and COHSE documents.

All work is guaranteed to be a high standard with minimum disruption for the client.

Blue Iris Landscapes are specialists and award-winning landscapers.

# Landscaping

## OUR SERVICES

When you have the perfect house, but the garden doesn't reflect that, high quality landscaping is the answer. Hard and soft landscaping can transform your garden into the ideal space to use for entertaining, spending time with your family or just enjoying your garden in the sun. Landscaping can help **give your garden the Wow factor**, contributing to the overall aesthetics of your property and giving you an outdoor space that you can be proud of.

Blue Iris Landscapes are experienced specialists in all aspects of hard and soft landscaping, with a team of experts who pride themselves on the quality of their workmanship and customer service. Our Landscaping Service includes:

- ✿ PATIOS, TERRACES, AND DRIVEWAYS
- ✿ DECKING, PERGOLAS AND SUMMER HOUSES
- ✿ TURF LAYING
- ✿ POND CREATION
- ✿ RETAINING AND BOUNDARY WALLS
- ✿ RESOLUTION OF DRAINING ISSUES
- ✿ GARDEN LIGHTING INSTALLATION
- ✿ CREATION OF ROCKERIES
- ✿ CREATION OF SENSORY GARDENS
- ✿ GARDEN DESIGN

### BESPOKE SERVICE

If you are looking for something that isn't listed here, get in touch with one of our Client Managers to discuss your requirements – we will be happy to help!

## **DECKING, SUMMER HOUSES AND PERGOLAS**

Summer houses and pergolas give your garden an area that you can sit and relax in, both alone and with guests, as well as giving your garden form and providing additional shade on sunny days.

Decking can also create additional seating areas in a garden, as well as giving you a vantage point from which you can sit and admire the rest of your garden. Blue Iris Landscapes use tanalised timber and specialist non-rust screws as part of our continued commitment to providing a high-quality product and ensuring a long-lasting finish.

## **TURFING**

A large sweeping lawn is the perfect space for children or pets to play on, or to hold garden parties on summer days.

Blue Iris Landscapes can lay a fresh lawn from scratch, add to an existing lawn or carry out restorative work if your lawn isn't looking its best. We use a high-quality amenity turf or can source turf with various ratios of bents, ryes and creeping fescues – all part of our bespoke service.

## **RETAINING/BOUNDARY WALLS**

Gardens on a hillside can look impressive but it is difficult to utilise the space to entertain guests or children when everything is on a slope.

Retaining walls can help reduce this slope, making your garden more practical.

Boundary walls are perfect for adding privacy, additional security and a clear boundary for your property – essential for giving you peace of mind when spending time out in your garden.

## **BORDERS AND TREES**

Nothing adds more to the appearance of a garden than a beautifully thriving border, filled with plants that provide variety, interest, and colour all year round whilst also attracting wildlife.

Blue Iris Landscapes can advise on and plant a variety of trees, shrubs, perennials and herbaceous plants to ensure your borders look fantastic all year round.

## GARDEN DESIGN

It's easy to know that you want your garden landscaping, but not so easy to know what you want doing to it.

A garden design can help you finalise what needs doing to create your dream garden. Our garden design team are here to interpret your ideas, aspirations, and dreams into a virtual garden, allowing you to consider various options and take a virtual walk around the finished project before the work has even started.
